## WhisperCut PLUS

### Your efficiency PLUS jointing

### Advantages at a glance

- Replacable diamond knives up to 10 times resharpenable in a reusable aluminium body
- Significant noise reduction up to 5 dB(A) from optimised tool body half the weight of steel body
- Trouble free chip clearance plus excellent DFC®-technology chip collection

# The new WhisperCut PLUS – convincing by its efficiency

## Convincing efficiency

- Up to 10 times resharpenable and replaceable diamond knives in a reusable aluminium body

## Extremely quiet

- Optimised aluminium tool body, half the weight of steel, with a noise reduction up to 5 dB(A)

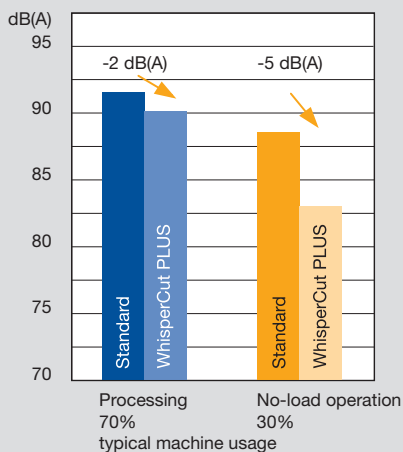

## Very low weight

- Halving the tool weight reduces the spindle load and protects the spindle bearings

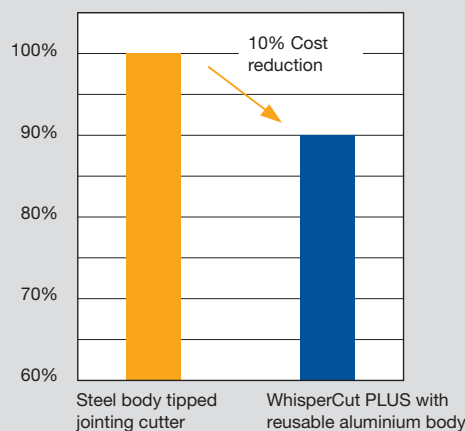

## Perfect chip collecting

- Trouble free chip clearance plus excellent DFC®-technology chip collection

## Noise reduction

## Cost reduction

## Cost reduction

10 % cost reduction with the WhisperCut PLUS from reusability aluminium body and up to 10 times resharpenable diamond knives.

## Noise reduction

Optimised aluminium tool body, half the weight of steel, with a noise reduction up to 5 dB(A).
