

# Diamaster WhisperCut Prismatic Rebate Cutterhead

For V-grooving in Aluminium composite panels

**Long production runs, for example, of composite aluminium cladding can present the manufacturer with many challenges in terms of cutting quality and precision.**

With the Diamaster WhisperCut Prismatic Rebate Cutterhead, Leitz offers the solution for fast, low noise and high-quality V-groove cutting for precision mitre edges.

## YOUR BENEFITS

- Energy-efficient
- Significantly less noise
- Long tool life
- Excellent cutting quality

## AT A GLANCE

- Multiple resharpenings
- Customized diameters
- Suitable for all standard machines and aggregates
- Available on short notice
- Diamond tipped

*Perfect mitre edges are particularly important for cladding facades.*

-3 TO -5 dB(A)

IN COMPARISON TO  
STANDARD REBATE  
CUTTERHEADS

-100 %

NO NEED TO  
REWORK THE  
CUTTING EDGE

UP TO 6-times

RESHARPENABLE

## Your benefits due to ...

### SUSTAINABILITY

**Diamaster WhisperCut Prismatic Rebate Cutterhead – lightweight, quiet, resharpenable**

- Protects the machine and saves energy due to Aluminium tool body
- Less noise through utilising special WhisperCut technology
- Saves resources and is economical due to multiple resharpening capability

### EFFICIENCY AND PRODUCTIVITY

**Diamaster WhisperCut Prismatic Rebate Cutterhead – dynamic on the machine**

- Short production times
- High feed rates possible
- Longer tool life

### FLEXIBILITY

**Diamaster WhisperCut Prismatic Rebate Cutterhead – variable use**

- Exchangeable diamond knives
- Suitable for materials such as Alucobond®, Alucore®, Dibond®, Reynobond®
